

End Social Care Disgrace

Campaign for a National Care, Support
and Independent Living Service

Free at the point of use

Publicly funded and provided

**Radically re-imagined and
co-produced with service users,
carers, workers and local communities**

**Offering choice, control, dignity
and independence**

Flexible support for carers

**Staff pay and conditions which
reflect their high value and
skills**

We are a non-party political alliance of disabled and older people's organisations, health campaigns and trade unionists etc., Please join us, work with us, affiliate your organisation

Our social care system is failing everyone except the private providers who are rinsing it for profit

Half those requesting support get no help. 14,000 are stuck in hospital for want of support in the community. Increased charges have led some people to give up support and thousands are being hounded over debts. Many are struggling to survive, stay safe and avoid total isolation. Care and support workers are leaving in droves because of rock bottom wages. Over 8m unpaid carers get little or no support. Almost half those living in poverty are in families where someone is disabled. Institutionalisation and abuse are rife.

Join us and help to raise a mighty roar to end this social care disgrace and violation of human rights

RESIST ALL MEASURES

which increase poverty and exclusion

FIGHT FOR A 'NOT FOR PROFIT'

RADICALLY RE-IMAGINED

National care, support and
Independent Living Service
